NEURAL PROSTHESIS SEMINAR SERIES

2018-2019
The Neural Prosthesis (NP) Seminar Series debuted in 1988. Since its debut, this series has sponsored numerous distinguished clinicians and scientists, working in areas that include functional neuromuscular and electrical stimulation, neuromodulation, brain computer interfaces (BCI), pain mechanisms and blocking, simulation & modeling, autonomic system, traumatic brain injury (TBI), and other related areas.

The NP Seminar Series is a public educational forum with prominent presenters active in all areas of research. The series brings together researchers, scientists, clinicians and students in the Northeast Ohio Research Community to encourage the exchange of scientific information on global emerging neuromodulation and neurostimulation topics.

The NP Seminar Series is sponsored by the Cleveland FES Center in partnership with our co-hosts.

Neural Prosthesis Seminar Series 2018-2019

**September 21**
8:30 am | DeGrace Hall, 312

Daniel Rizzuto, Ph.D.
CEO, Nia Therapeutics

**October 12**
8:30 am | DeGrace Hall, 312

Cameron McIntyre, Ph.D.
Tilles-Weidenthal Professor
Department of Biomedical Engineering
School of Medicine, Case Western Reserve University

**November 16**
8:30 am | Wolstein Research Building, 1413

Nanthia Suthana, Ph.D.
Assistant Professor-in-Residence
Department of Neurosurgery
David Geffen School of Medicine at UCLA

**December 7**
8:30 am | Wolstein Research Building, 1413

Mark Griswold, Ph.D.
Professor
Department of Radiology
School of Medicine, Case Western Reserve University

**January 25**
8:30 am | Wolstein Research Building, 1413

Christos Davatzikos, Ph.D.
Wallace T. Miller Sr. Professor
Department of Radiology
University of Pennsylvania School of Medicine

**February 15**
8:30 am | Wolstein Research Building, 1413

Adam Gazzaley, M.D., Ph.D.
Founder & Executive Director, Neuroscape
Professor, Neurology, Physiology and Psychiatry
University of California San Francisco

**March 22**
8:30 am | Wolstein Research Building, 1413

Kenneth Baker, Ph.D.
Adjunct Assistant Professor, Molecular Medicine
Cleveland Clinic Lerner College of Medicine
Case Western Reserve University

**April 12**
8:30 am | Wolstein Research Building, 1413

Cori Bargmann, Ph.D.
Torsten N. Wiesel Professor
Genetics & Genomics, and Neurosciences & Behavior
The Rockefeller University

**May 17**
8:30 am | Wolstein Research Building, 1413

Industry Round Table

Live stream lectures at www.FEScenter.org/Seminar
The Cleveland FES Center was established through the US Department of Veteran's Affairs, Office of Rehabilitation Research & Development Service in 1991. The FES Center, a consortium in neuromodulation and neurostimulation, includes the Louis Stokes Cleveland VA Medical Center, Case Western Reserve University, MetroHealth Medical Center, University Hospitals of Cleveland, and the Cleveland Clinic Neurological Institute.

The focus of the Cleveland FES Center is to improve people’s lives by supporting fundamental research in the neuromuscular sciences, developing new technologies and methods, performing clinical evaluation and feasibility testing, and promoting the widespread deployment of new technologies through professional education and commercial partnerships.
