

## CONGRATULATIONS JOHN CHAE, MD

### SPR THERAPEUTICS FDA PAIN MANAGEMENT DEVICE CLEARANCE

SPR Therapeutics received clearance from the United States Food and Drug Administration to commercialize the SPRINT Peripheral Nerve Stimulation (PNS) System. SPRINT is the least-invasive, completely reversible peripheral nerve stimulation system available to provide sustained relief of chronic and acute pain, including post-operative and post-traumatic pain.

SPR Therapeutics is focused on innovative neurodevice technologies for pain, a safe, effective and non-narcotic alternative to opiates without the invasiveness of neurosurgery.

#### About the FES Center

The Cleveland FES Center is a consortium of the Louis Stokes Cleveland VA Medical Center, MetroHealth Medical Center, Case Western Reserve University, and University Hospitals. With their support, researchers, engineers and clinicians collaborate together to develop innovative solutions that improve the quality of life of individuals with neurological or other muscular skeletal impairments. Through the use of neurostimulation and neuromodulation research and applications, the Cleveland FES Center leads the translation of this technology into clinical deployment.
