

CONGRATULATIONS MATT WILLIAMS, PHD

VA RR&D SMALL PROJECTS IN REHABILITATION RESEARCH GRANT AWARD

The Cleveland FES Center congratulates Matt Williams, PhD on the award of his SPIRE grant entitled, "Effect of Upper Arm Support on the Hemiparetic Arm."

The Small Projects in Rehabilitation Research (SPIRE) program awards are VA RR&D's mechanism for funding small scope and duration basic, translational and clinical studies of disorders and diseases of importance to the rehabilitation of veterans.

About the FES Center

The Cleveland FES Center is a consortium of the Louis Stokes Cleveland VA Medical Center, MetroHealth Medical Center, Case Western Reserve University, and University Hospitals. With their support, researchers, engineers and clinicians collaborate together to develop innovative solutions that improve the quality of life of individuals with neurological or other muscular skeletal impairments. Through the use of neurostimulation and neuromodulation research and applications, the Cleveland FES Center leads the translation of this technology into clinical deployment.
