

CONGRATULATIONS CAMERON MCINTYRE, PHD AIMBE FELLOW

Congratulations to Cameron McIntyre, PhD, elected to the 2016 Class of AIMBE College of Fellows. Dr. McIntyre is recognized for his contributions to the scientific analysis, therapeutic mechanisms and technology development of deep-brain stimulation clinical therapy.

The American Institute for Medical and Biological Engineering (AIMBE) College of Fellows consists of over 1,500 individuals who are the outstanding leaders, engineers, entrepreneurs, and innovators in medical and biological engineering that have transformed the world.

The focus of Dr. McIntyre's research is developing permanent deep-brain stimulation implants used to treat Parkinson's disease, tremors and movement disorders.

About the FES Center

The Cleveland FES Center is a consortium of the Louis Stokes Cleveland VA Medical Center, MetroHealth Medical Center, Case Western Reserve University, and University Hospitals. With their support, researchers, engineers and clinicians collaborate together to develop innovative solutions that improve the quality of life of individuals with neurological or other muscular skeletal impairments. Through the use of neurostimulation and neuromodulation research and applications, the Cleveland FES Center leads the translation of this technology into clinical deployment.
