

Neural Prosthesis Seminar

“Responsive Cortical Stimulation for Epilepsy: Insights Gained and Questions Raised”

Friday, November 2, 2012 • 8:00 AM
Kulas Auditorium, 5th Floor • Lakeside
University Hospitals - Case Medical Center

Martha Morell, MD

Martha Morell, MD

**Clinical Professor of Neurology and, by courtesy, Neurosurgery
Stanford University; Chief Medical Officer, NeuroPace, Inc.**

The Presentation will be focused on the following objectives:

- **Be familiar with recent approved and investigational stimulation therapies for epilepsy**
- **Be aware of acute and long term impedance changes in electrodes implanted in the brain**
- **Recognize that optimal stimulation approaches may vary depending on neuroanatomical target**

For more information, please contact Cheryl Dudek at (216) 231-3257.
