

Neural Prosthesis Seminar

“Towards Multimodality Connectivity Based Neuromodulation”

Friday, October 17th, 2014 • 8:00 AM

Kulas Auditorium
University Hospitals

Nader Pouratian, MD, PhD

Nader Pouratian, MD, PhD

Assistant Professor of Neurosurgery
University of California, Los Angeles

- Identify factors contributing to failure of recent large scale neuromodulation trials.
- Identify neurosurgical opportunities to define the network basis of therapeutic neuromodulation
- Understand how neuroimaging can be used to define the connectivity basis of neuromodulation
