## CONGRATULATIONS

---

**Emily Graczyk, PhD**

*Research Assistant Professor*

Department of Biomedical Engineering

Case Western Reserve University

The Cleveland FES Center congratulates Emily Graczyk, PhD on her recent appointment of Research Assistant Professor in the Department of Biomedical Engineering at Case Western Reserve University.

Dr. Graczyk's research examines the coding and processing of somatosensory information and the perceptual and psychological experience of artificial sensation created by neurotechnology. She uses cross-disciplinary approaches to study sensation, including neural stimulation, computational modeling, psychometrics, behavioral assessments, and qualitative analyses.

### About the FES Center

The Cleveland FES Center is a consortium of the Louis Stokes Cleveland VA Medical Center, MetroHealth Medical Center, Case Western Reserve University, University Hospitals, and the Cleveland Clinic Neurological Institute. With their support, researchers, engineers and clinicians collaborate together to develop innovative solutions that improve the quality of life of individuals with neurological or other muscular skeletal impairments. Through the use of neurostimulation and neuromodulation research and applications, the Cleveland FES Center leads the translation of this technology into clinical deployment.
