2018 Gold Electrode Award

The Cleveland FES Center congratulates the Institute for Functional Restoration (IFR) on receiving the 2018 Gold Electrode Award for being the most valuable non-profit by Neurotech Reports. The award was presented at the 2018 Neurotech Leaders Forum in San Francisco.

The mission of the IFR is to restore function to people with paralysis by creating a sustainable commercial enterprise for neuromodulation systems.

About the FES Center

The Cleveland FES Center is a consortium of the Louis Stokes Cleveland VA Medical Center, MetroHealth Medical Center, Case Western Reserve University, University Hospitals, and the Cleveland Clinic Neurological Institute. With their support, researchers, engineers and clinicians collaborate together to develop innovative solutions that improve the quality of life of individuals with neurological or other muscular skeletal impairments. Through the use of neurostimulation and neuromodulation research and applications, the Cleveland FES Center leads the translation of this technology into clinical deployment.
