Case-Coulter Translational Research Partnership Awards

Congratulations to FES Investigators, Anant Madabhushi, PhD, Cameron McIntyre, PhD, Jennifer Sweet, MD on receiving Case-Coulter Translational Research Partnership (CCTRP) Awards in the most recent round of funding.

The CCTRP, which helps to commercialize projects by clinicians and biomedical engineering faculty that improve human health and well-being, has awarded more than \$1.1 million in financial backing and other support for the most recent round of funding.

### **About the FES Center**

The Cleveland FES Center is a consortium of the Louis Stokes Cleveland VA Medical Center, MetroHealth Medical Center, Case Western Reserve University, University Hospitals, and the Cleveland Clinic Neurological Institute. With their support, researchers, engineers and clinicians collaborate together to develop innovative solutions that improve the quality of life of individuals with neurological or other muscular skeletal impairments. Through the use of neurostimulation and neuromodulation research and applications, the Cleveland FES Center leads the translation of this technology into clinical deployment.
