
CONGRATULATIONS

Hunter Peckham, PhD

North American Neuromodulation Society (NANS)
Lifetime Achievement Award

The Cleveland FES Center congratulates Hunter Peckham, PhD on receiving the North American Neuromodulation Society (NANS) Lifetime Achievement Award.

Dr. Peckham received the award at the NANS 23rd Annual Meeting in Las Vegas, January, 2020.

Dr. Peckham is the Donnell Institute Professor of Biomedical Engineering and Orthopaedics, Founder of the Institute for Functional Restoration (IFR) at Case Western Reserve University; Associate Director of Technology Transfer at the Cleveland FES Center; and Co-Director of the MetroHealth Rehabilitation Institute at MetroHealth Medical Center. His globally known research involves the development of neuroprostheses that use FES to restore hand/arm control to individuals of cervical level spinal cord injury (quadriplegia).

About the FES Center

The Cleveland FES Center is a consortium of the Louis Stokes Cleveland VA Medical Center, MetroHealth Medical Center, Case Western Reserve University, University Hospitals, and the Cleveland Clinic Neurological Institute. With their support, researchers, engineers and clinicians collaborate together to develop innovative solutions that improve the quality of life of individuals with neurological or other muscular skeletal impairments. Through the use of neurostimulation and neuromodulation research and applications, the Cleveland FES Center leads the translation of this technology into clinical deployment.
